KANA

Founded in 2018 under PT. Integriya Dekorindo, KANA marks the existence of Integra Group in the retail business market.

Built upon a legacy that spans over 30 years, KANA is an omnichannel furniture brand driven by innovation, sustainability, and a desire to make great design available for everyone.

#FurnishYourStory

KANA is now here to be closer to your everyday life, turning each corner into an expression of your dream, with hope of a taste of beauty through urban furniture, decor, and design services.

We believe a room is not an object without its meaning through memories and expressions of its occupant. A room is a dynamic place, overflowing with stories that become personal impressions, built from relations of the individuals who live within it.

Locally Made

Designed to celebrate cultures and local artistry, our products are thoughtfully and skillfully crafted. We take pride in being a part of the local artisanship movement.

Affordable Luxury

We have a diverse furniture and home décor collection that has been carefully curated in collaboration with well-known Indonesian designers. We try to accommodate everyone's preferences in order to provide you with luxury home furnishings that you can enjoy at home

Stylistic Direction

When it comes to style, our goal is to help customers create spaces that reflect their personal preferences and unique tastes.

Our products and experience centers are largely inspired by modern contemporary design as well as transitional design.

Transitional

Our version of transitional design is largely influenced by the Asian people and the European heritage.

In expressing this style through our products, we love combining traditional and modern aesthetics by playing with various patterns and rich textures.

Modern Contemporary

At KANA, modern contemporary is largely influenced by modern art, Scandinavian design, and Japanese minimalism. We take pleasure in utilizing clean lines, efficient structures, and friendly shapes.

KANA

KANA for Indonesia

KANA Furniture is expressing its desire to contribute to the creation of stories and memories for Indonesia through furniture items that stand for locally produced goods of a high international standard

KANA for G20

It is an honor for KANA that some of our furniture have been chosen to take part in a series of discussions during the G20 Indonesia meeting in Bali. Among them are the Soho Side Table, Arabeth Chair, and Lafayette Coffee Table, all of which are the outcome of our partnership with Endramukti Design. This is an incredible accomplishment and experience.

Soho Side Table

The name "Soho," which stands for South of Houston Street in downtown New York, was inspired by the cast iron buildings in the region. This side table's two sets of vertical grilles, which are located on its opposing sides, are a reflection of its cast iron construction. Although the more modern architectural style reflects today's shops housed within this more classic architecture.

Lafayette Coffee Table

Lafayette Street in Downtown New York may appear classic, but it is home to many contemporary artists such as David Bowie. The Lafayette coffee table was created to have a contemporary yet grounded appearance with a natural wood tone finish that would have complemented Bowie's abode.

Arabeth Single Arm Chair

“Arabeth” means “God is my oath or lion” and evokes images of grace and sturdiness. The stern’s wooden buttresses and the light rattan utilized in the design seem fittingly titled.

KANA for KTT ASEAN 2023

It is an honor and a source of pride for KANA products to be able to participate in the series of conversations at the 42nd Asean 2023 Summit in Labuan Bajo. KANA products like the Alor and Timor Meeting Table, Meko Arm Chair, and Bajo Side Table Chair are proudly shown between President Jokowi and ASEAN leaders.

Meko Single Arm Chair

Become a unique and charming chair that tells a memorable story like Meko Island in East Nusa Tenggara. The Meko Arm Chair has a firm and comfortable seat, a solid wooden frame, and a sumptuous touch of gold decoration on the armrests and legs. During the Retreat Session series of the 42nd ASEAN Summit in 2023, the Meko Arm Chair's presence has left a lasting impression.

Palmetto Single Arm Chair

Inspired by gorgeous island tourism memorabilia that are rich in history and leave a lasting impression since they are rooted in the local culture and have a backstory. Palmetto features a solid wood carving design on the back and legs of the chair, creating a place full of stories to preserve the lovely and wonderful memory of the dinner session of state leaders at the 42 ASEAN 2023 Summit and provided an unforgettable impression.

Alor Meeting Desk

Meeting desk Alor is made of durable wood that has been expertly carved by local artisans into dazzling designs, making it just as lovely as the island of Alor with its entrancing majesty. Apart from becoming a part of the Indonesian story and leaving a lasting effect, the presence of the Alor Meeting table made a stunning impression in the ASEAN Foreign Ministers' Meeting (AMM) discussion chamber at the 42nd ASEAN Summit in Labuan Bajo.

Timor Meeting Desk

Inspired by exotic locales that preserve the allure of eastern Indonesia's natural beauty, Timor meeting table made of durable brown wood with fine wood fiber embellishments. Meeting table Timor is eloquently represented among the main ASEAN nations and made a lasting impression during a series of debates during the 42nd ASEAN Summit in Labuan Bajo in 2023.

Designer's Note

For KANA x HIDAJAT ENDRAMUKTI, the designs are inspired mostly by modern and scandinavian with a hint of Indonesia's culture. For many of the products, we want to play around with the materials by designing items that may seem eclectic and unique such as Tumpuk and Tumpang side tables as well as the Enola table.

At the same time, we aim for the products to be composed efficiently in any interior settings, whether they be homes, villas, hotels, or even commercial estates. As Elsie de Wolfe said, "I'm going to make everything around me beautiful, that will be my life."

To that, our goal for this collection is to encourage more of the public to bring more beauty and coziness to their homes.

- Hidajat W Endramukti,

Hidajat Wardhana Endramukti, an architect and senior interior designer, is also the founder of Endramukti Design, located in Surabaya. Born in Malang, Hidajat received his Bachelor of Science and Master of Science degrees at Delft University of Technology in the Netherlands.

After he graduated, he went back to Indonesia to work for DCM Architects in Jakarta before he opened Endramukti Design in 1991. Hidajat Endramukti works on projects from all over Indonesia to foreign countries.

His design style can be described as a mix of colonial, ethnic and modern. Hidajat received the Commerce Design Award from Style and Décor Magazine for his project, The Shalimar Boutique Hotel in Malang, as well as the award for Best Interior Designer from Indonesia Design Magazine.

KANA × andramatin

Designer's Note

To celebrate local creations in a space full of stories.
We present you, the KANA x Andra Matin collaboration space.

The KANA x Andra Matin collection carries a contemporary architectural style that is influenced by minimalist architectural styles and Japanese architecture. Andra Matin "forces" us to lend our emotions, and puts them there. It is felt that it is present not only in its material existence, but in the images and feelings that are evoked by those who experience it. In doing so, it makes us feel our attachment to place, time, and especially to ourselves, in a more powerful and meaningful way.

Isandra Matin Ahmad, better known as Andra Matin, is a well-known architect from Indonesia who became a pioneer in the founding of Young Architects of Indonesia.

Born in Bandung, 1962, he graduated from Architecture, Parahyangan Catholic University, Bandung in 1988. He started his career at Graha Cipta Hadiprana, for a decade until 1998, and decided to develop his own firm, Andramatin, based in Jakarta. Andra Matin's works always display honesty, in the sense of showing the material in the building as it is.

The image features a stack of porcelain plates with intricate, traditional patterns. The top plate is in sharp focus, showing a central floral motif in blue and yellow on a white background, surrounded by a wide, decorative border with repeating geometric and floral elements. Below it, several other plates are visible, each with similar but slightly different patterns, creating a sense of depth and texture. The lighting is soft, highlighting the glossy finish of the porcelain.
